MISSION

Our Mission :

- Imparting value-based quality education.
- Helping students realize their full potential through highly productive co-curricular activities and games and sports.
- Gender Equality: we look forward to create a society where there will be no chasm between a boy and a girl. In other words, we want to see a girl having equal opportunities, similar to that of a boy.
- Churning out good responsible future citizens.
- In one word, our aim is **HOLISTIC EDUCATION and all around development of the child with great care!**

Our Vision :

We look forward to sensitize our students, parents and all people , in and around our school , on the *philosophy of Karma* , that is , to rely on our duties and actions more than to be a champion of our rights , thereby, ultimately leading to a *transformation of our society from rights-consciousness to duty-consciousness.*
