Dear Parents,

I would like to express my sincerest appreciation to parents, guardians, and students for your incredible patience and flexibility as we conclude the 2021-2022 school year. We appreciate the cooperation from parents in switching over the mode of teaching from online to offline/hybrid mode as per the situation and your support in your ward's potential return to the classroom. While we make earnest efforts to provide a safe and secure learning environment for students, we request parents to make sure that their wards also follow all safety guidelines. We are confident that the ongoing crisis will come to an early end and the commencement of the new session will give way to sunshine and students will return to regular classes in the near future. I take the opportunity to extend my earnest gratitude to you for your kind support and participation extended all through the ordeal.

4. Parents should positively reinforce their wards by sharing good thoughts and being a good listener, to tap into their individual strengths and draw attention to their personality traits and interests. Children should be encouraged to come to school to connect and communicate effectively with peers and teachers, and ultimately come out of the virtual platform as social interaction with peer group provides the experiences that aid the positive growth of a child.

5. Practical Examinations are a continuous part of assessment. Details will be given by the subject teacher when scheduled. Students must complete and submit project files, practical files in time and not take leave on practical days.
