

## **My Dear Learners and their Parents**

Responding to the Clarion Call of the Government of India and the U.T. Administration, Chandigarh, the School was closed and we became one among the many millions, who were helping to fight a Pandemic, which has brought the World to its knees.

The Result of this has become a moment of Trial and then an Achievement for us. DAV Institutions across the country embarked on an exciting and adventurous journey of using the Technology at hand under the direction of its Leader Padam Shri Punam Suri ji, President, DAV CMC, New Delhi, to make this Period, productive for our young learners.

The immense Dedication and Team work of the Teaching and Non-Teaching Staff has unfolded through the 'Bringing Learning to the Learner' Initiative. Our Teachers under their Coordinators have worked relentlessly creating Lessons/assignments/Videos/Notes since the 23rd March 2020 for Class X and XII. I am especially thrilled to announce that the online learning for Class Nursery till Class XII shall commence from tomorrow, i.e. 1st April 2020.

Welcome to the New Session 2020-21!

The School shall be sending the assignments through the e-mail of the parents, who have been proactive in responding to the Call of the School, and filling up the Google Form. If you have been left out, Please check your mobile phones and look for a Link created for you. Fill this up and submit it to the School and help us connect with you.

I am particularly pleased to announce that we will be embarking on a rather exciting road-connecting to the Learner through Virtual Learning. The process will commence tomorrow with Class XII and then the School will broaden its Field and include all classes in a phased manner.

The School will first train its Staff and then apprise its learners and parents on how to avail this e-service. These are called the Doubt Sessions and will be used to clarify doubts in a live streaming session. There may be issues of connectivity and Infrastructure at your end or ours. In the meantime, the online learning will continue through dispatch of material via e-mail.

Very soon, the School will be posting its e-lessons on the Link provided in the School Website. After adding the Username and Password, the Data will open for your ward's class and showcase all the links of various subjects and days. Information pertaining to this, will be sent to each parent by the school. Currently, your e-mail is being used to send the lessons/links/videos after converting them into Google links.

At this stage, it is imperative for the parents to understand that your child needs to take this Shift seriously and practice what is being shared by the Teacher. Not everything taught in the classroom is comprehended in one go. One needs to revise, practice and learn as well. Try not to be too critical this is the best we can do under the given circumstances.

Let the learner connect for the Doubt Sessions, but please note that there may be little or no time to repeat everything sent, later when the School reopens. Exceptions will always be there, depending on the Class and circumstances.

With limitations and restrictions on movement, the Office is trying to fulfill the requests made by parents. Bear with us. We will always do our best to avoid inconvenience to all associated with us.

Stay safe and protected and don't hesitate to write to us.

Best Wishes and Blessings for the New Session 2020-21.

Pooja Prakash
